VOLUME GLOW

Definition

VOLUME GLOW is a shampoo **specially formulated for hair lacking volume and shine**. Its formula helps to increase hair volume and movement, whilst adding shine and radiance to the hair fibre.

Enriched with quinoa extract and panthenol, it helps to maintain moisture in the hair fibre, leaving hair soft, supple and elastic. Its formula **helps to improve the overall appearance of the hair, helping to achieve greater volume, body and movement, whilst visibly enhancing shine**.

The result is hair with more volume, movement and shine, looking soft, light and radiant.

Benefits of use and visible results

- Helps to add volume and body to the hair.
- Helps to maintain moisture in the hair fibre.
- Contributes to increasing the hair's shine and lustre.
- Helps to improve the softness and elasticity of the hair fibre.
- Promotes lighter hair with greater movement.
- Helps to improve the appearance of fine, lifeless hair

Active ingredients and components

QUINOA EXTRACT: Helps to maintain and restore moisture in the hair fibre thanks to its amino acids, carbohydrates and fatty acids. It helps to improve the softness and appearance of the hair, promoting a suppler and well-nourished hair fibre.

PANTENOL: Helps to moisturise the hair fibre and improve its flexibility and elasticity, forming a thin film over the hair that helps to enhance its appearance and add shine. It also helps to give the hair a fuller, more voluminous feel.

Method of application

Apply the product to wet hair and massage into a lather, then rinse thoroughly with water.
