HI
SHINE & REBUILDING
HAIR MASK

Definition:

Intense repair mask indicated for very damaged hair. Exclusive formula created and enriched with a high concentration of ingredients of natural origin to carefully selected to repair, protect and restore the splendor of the hair, leaving it extremely shiny.

The combination of different raw materials contributes to repairing and strengthening the hair, providing adequate moisture and preventing damage caused by external factors. Its conditioning agents help to reduce frizz, close cuticles, facilitate combing and leave a voluminous, silky and shiny finish.

Benefits of use and visible results:

- Helps repair from inside the hair fibre.
- Extremely shiny and silky finish.
- Improves hair strength.
- Helps to increase hair diameter.
- Protects from external factors and heat.
- Helps seal the cuticle and reduce friction and frizziness.
- Helps reduce static electricity.
- Contributes to optimal moisturizing of the hair.
- Improves elasticity and gives more movement to the hair.
- Facilitates combing and improves manageability.

Active ingredients and components:

AMARANTH SEED EXTRACT:
Its composition contains very small fractions of peptides that penetrate the hair fibre, binding to the structure and thus improving its performance and effectiveness. It increases the diameter of the fibres, providing volume and improving structural integrity for stronger and more resistant hair. Reduces friction, provides movement, improves combability and leaves a shiny, silky finish.

VEGETABLE PROTEIN HYDROLYZED (VEGETABLE KERATIN)
It is a solution containing animo acids from both wheat and soya, together with carefully selected amino acids. Its benefits are very powerful for the hair
such as increasing hair strength, improving its elasticity, helping to protect it against external factors, providing shine and a much healthier appearance, improving combability and reducing static electricity and frizz.

ALARIA ESCULENTA EXTRACT
The seaweed extracts contain in their interior quantities of vitamins, minerals and trace elements that are very beneficial in this case for the health of our hair. They help to repair and tone the hair, providing it with moisture and minerals. The combination of benefits of seaweed extract facilitates combing, adds texture and shine and leaves a soft and silky finish to the hair.

ANTI-STATIC CONDITIONERS
These ingredients provide conditioning and detangling properties to the hair. They create a protective film on the hair fibre that aligns the cuticles, preventing friction, static electricity and frizz, leaving a silky, smooth and frizz-free finish.

HYDROGENATED OLIVE OIL
Ingredient used as a vegetable alternative to silicones. It gives a silky feel and softness to the hair providing a satin effect, while helping to restore the hair's suppleness and elasticity.

How to use:

After washing hair, apply the necessary amount to wet hair, according to its length. Leave it on for a few minutes before rinsing thoroughly with water. If hair is very damaged, leave the product on for longer. Do not use on children under 3 years old.
