Description

COSMIC LEAVE-IN SPRAY is the result of a new vision of the Linecure range in hair care, the care of our most precious natural resources and the evolution towards clean, sustainable and respectful hair cosmetics; with ourselves and with the environment.

A sustainable formula created without silicones, without parabens and without sulphates, vegan and with ingredients of natural origin, respectful with the hair and the environment.

A leave-in cream treatment spray with an exclusive vegan formulation based on naturally sourced ingredients that gives hair incredible results from the first application.

Benefits of use and visible results

- Helps nourish and moisturize hair
- Contributes to the repair of split ends
- With anti-frizz and anti-static effect.
- Color protection against UV rays
- Thermal protection
- Protection against salt aggressions from sea water
- Helps improve combability, softness and silkiness of the hair
- Contributes to increased shine
- Helps add body and volume to the hair

Active ingredients and components

NATURA-TEC ABYSOFT

A natural "smart" active ingredient based on Crambe Oil with a conditioning effect that improves the hair's elasticity and shine. In addition, it helps protect against UV rays, heat and sea water.

HYDROLYZED WHEAT PROTEIN

Provides volume for fuller looking, frizz-free hair.

HYDROLYZED VEGETABLE PROTEIN

Multifaceted protein-based complex that acts on the fundamental parameters of hair strength. Penetrates the hair cuticle, helping strengthen it from the inside, while helping reinforce, lubricate and protect the hair surface.

SUNFLOWER SEED EXTRACT

Vitamin E extract helps protect and repair natural or colored hair against UV rays and chemical aggressions.

Method of application

After washing hair, remove excess moisture with a towel. As this is a highly concentrated product, the application dose will depend on the length of the hair.

Apply the spray to the mid-lengths and ends and distribute it evenly. This product is a leave-in, so it does not need to be rinsed out.
