

# LINECURE

HI - P R O F E S S I O N A L

## HI HYDRO SENSE CONDITIONING CREAM

### Definition:

**HYDRO SENSE** conditioning cream is especially suitable for damaged hair. Scientifically developed to provide shine and vibrancy to dry, damaged, processed or porous hair.

The active ingredients in its exclusive formula, based on lotus flower extract and technical silicones, not only hydrate and nourish the hair, but also allow it to be easily combed while preventing split ends.

### Benefits of use and visible results:

- Maximum hydration and nourishment
- Repairing of split ends
- Shine and volume
- Surprising detangling effect
- Strengthens hair structure

### Active ingredients and components:

**PROVITAMIN B5 AND GLYCERINE:** These two substances are derived from natural ingredients and help provide deep hydration to hair.

**LOTUS FLOWER EXTRACT:** This plant is of Asian origin and boasts numerous nutrients and minerals. It is used because it helps regenerate hair fibres, closing the cuticle and leaving hair looking healthier and smoother. Its hydrating qualities help improve shine and minimize frizz.

### How to apply:

After washing hair, dry off any excess water and apply the necessary amount of product depending on the length of hair (3ml for average length). Apply the cream to the middle and tips and comb to evenly distribute. Do not rinse.

### Presentation and formats:

- 1L bottle → **cód. 6707**
- Box of 6 units
