crema de manos hand cream

Description:

Hand cream with a new and exclusive formula. Created from 95% natural origin ingredients, and completely Vegan. Its formula includes Calendula extract and Hyaluronic acid, essential ingredients for total skin care. It helps keep hydration, provides softness and contributes to skin regeneration.

Benefits of use and visible results:

- Quick and easy absorption.
- Pleasant fragrance
- Helps keep hydration
- Contributes to increase elasticity of the skin
- Vegan formula
- Provides softness to the skin

Active principle and components:

CALENDULA EXTRACT

Calendula is a flower with a high regenerative power. It provides a healing action, helping to produce collagen and increase skin elasticity. Its benefits are ideal for treating damaged, cracked, dry skin...

HYALURONIC ACID

Hyaluronic acid is a component naturally present in our body. It helps keep skin hydration at its optimum point. In this way, it contributes to the reduction of wrinkles, and it also provides volume by revitalizing the layers of the skin.

Mode of use:

Apply the cream on the hands, spread it and rub it until it has been absorbed.

Presentation and formats:

- 40ml tube → code 6715
- Empty display → code 9976
