

LIFTING RECONSTRUCTOR

DESCRIPTION:

Hipertin **RECONSTRUCTIVE LIFTING** achieves extraordinary results thanks to the balanced combination of Plant Stem Cells that penetrate through the hair cuticle and reach the cortex. Penetrates deep into the hair fibre helping it to repair from the inside, restoring its youthfulness and natural shine by moisturising from the inside.

ANTI-AGE HAIR TREATMENT

REJUVENATING EFFECT - TOTAL REPAIR FROM THE 1ST APPLICATION

THE RECONSTRUCTIVE LIFTING TREATMENT IS COMPOSED OF TWO PRODUCTS:

TREATMENT CREAM [1] - Intensive treatment formulated with Plant Stem Cell Culture Extract and Lotus Flower. Helps restructure very damaged hair by helping repair it from within.

FINAL TOUCH OIL [2] - Product enriched with Argan Oil and Lotus Flower. Helps restructure very damaged hair. Helps achieve a smooth, shiny finish.

BENEFITS OF USE AND VISIBLE RESULTS.

RECONSTRUCTIVE LIFTING HELPS

- Repair, rebuild and deeply nourish the hair fiber from the inside.
- Provide resistance, strength and shine to the hair.
- Strengthen the hair fiber, increasing the anti-breakage capacity of the hair.
- Stop the processes of weakening and aging.
- Provide a renewed and young look to the hair.

ACTIVE PRINCIPLES AND COMPONENTS:

PLANT STEM CELLS: With self-regenerative and self-renewing properties. These properties provide longevity and regeneration to the hair.

LOTUS FLOWER: It provides nutrition, hydration, softness and luminosity to the hair thanks to its many minerals and nutrients.

ARGAN OIL: Rich in Vitamin A, E and antioxidants that help prevent hair aging.

APPLICATION MODE:

The **RECONSTRUCTIVE LIFTING** intensive reconstructive treatment with Plant Stem Cells can be applied to all types of hair.

The application of the **RECONSTRUCTIVE LIFTING** treatment is carried out in two phases:

Phase 1:

- After washing the hair, apply **TREATMENT CREAM** and distribute from the middle to the ends and massage in depth according to the length of the hair (See applications).
- Protect with a thermal cap and leave on for 15 minutes.
- Thoroughly rinse the hair.

Phase 2:

- After applying Phase 1, spray **FINAL TOUCH OIL** on wet hair according to hair length (See applications).
- Comb and distribute the product well on the hair to achieve an optimal effect. Do not rinse.
- Proceed to styling with a dryer and/or flat iron to obtain a spectacular result.

Application on short hair:

- **Phase 1:** Distribute ½ tube of TREATMENT CREAM.
- **Phase 2:** Spray 2 pumps of FINAL TOUCH OIL.

Application on medium hair:

- **Phase 1:** Distribute ¾ tube of TREATMENT CREAM.
- **Phase 2:** Spray 3 pumps of FINAL TOUCH OIL.

Application on long hair:

- **Phase 1:** Distribute 1 tube of TREATMENT CREAM.
- **Phase 2:** Spray 3 or 4 pumps of FINAL TOUCH OIL.

The duration of the **RECONSTRUCTIVE LIFTING** effect is of approximately 10 washes.

Treatment can be prolonged at home with the use of **FINAL TOUCH OIL**.

PRESENTATION AND FORMAT:

KIT LIFTING – CODE 6750

Contains:

- 15 tubes of 30 ml
- 1 bottle of 125 ml
- 1 aluminium thermal cap

TREATMENT CREAM [1] – CODE 6748

Contains a 30 ml tube

FINAL TOUCH OIL [2] – CODE 6749

Contains a 125 ml bottle

FLYER KIT LIFTING – CODE 9414

POSTER KIT LIFTING – COD 1020
