HI SILK SERUM HAIR REPAIR

Definition:

Its formula contains Provitamin B5 and Silk Proteins which help to give the hair shine, softness and silkiness.

It has been specially designed for the treatment and care of the most fragile and brittle hair, sealing the hair fibre and split ends.

Thanks to the fact that it penetrates damaged hair, it acts from the inside and remains in place even after multiple washings. Ideal for treating hair after a chemical process (bleaching, perming or colouring).

Benefits of use and visible results:

- Helps to seal open ends
- Helps to maintain the hair's moisture content
- Helps give hair more shine
- Soft and silky hair
- Makes combing and untangling easier

Active ingredients and components:

PROVITAMIN B5

This component is particularly suitable for hair treatments thanks to its incredible conditioning power. It also helps to retain moisture to prevent loss of shine.

HYDROLIZED SILK

Gives the hair shine, softness and silkiness.

How to apply:

Shake before use. Place a few drops on our fingers and lightly massage the middle and ends of wet or dry hair until the product has been absorbed. Do not rinse.

Presentation and formats:

- Bottle of 125ml → **code 6638**
- Box of 12 units
